# SpendEven

BY TVASTI SOLUTIONS · QUICK OVERVIEW

# Track every spend. *Split it even.*

A personal expense tracker for Indian households — daily spends, trips, events and programs — that also splits shared costs fairly between families and friends, and settles them over UPI.

01
**Start a trip**
Trip, event, friends or home — one tap

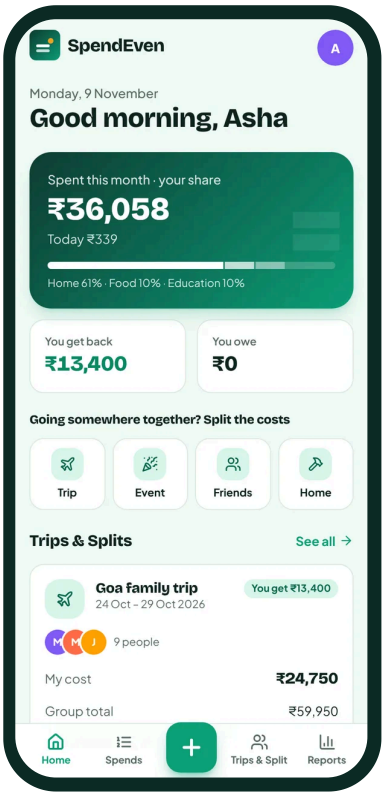

02
**Add people**
Families, guests — or invite them

03
**Add a spend**
Type it, say it, snap the bill

04
**Split it**
Equal, by heads, exact, %

05
**See balances**
Who owes whom, simplified

06
**Settle on UPI**
GPay, PhonePe, Paytm, BHIM

| TODAY | WITH SPENDEVEN |
|---|---|
| Expenses written in a diary, or not at all | **Add a spend in seconds — say "chai 40 rupees", or attach a photo of the bill** |
| Rent, EMIs and fees typed in again every month | **Recurring spends add themselves on their date, every morning** |
| A trip with three families settled on a calculator at the end | **Every bill split as it happens — equally, by heads, exact amount or percentage** |
| Someone joins on day three, or a guest comes for one dinner | **Each person has a join date; guests share only their bills, or are covered by someone** |
| One person keeps every bill for the whole group | **Invite members to their own login — they add their own bills from their phone** |
| Chasing friends for money you are owed | **A WhatsApp reminder with the amount and your UPI ID, ready to send** |

WHAT IT DOES

01
## Daily spends

- 14 categories and about 80 subcategories made for Indian homes, plus your own
- Payment mode — cash, UPI, card or bank
- A photo of the bill on any spend — from the camera or a file, kept private

02
## Trips & splits

- Start one from Home in a tap — Trip, Event, Friends or Home
- Also programs, business trips or anything else
- Dates and an optional budget, with what is left shown live

03
## Fair splitting

- Only one · Equal · By heads · Exact ₹ · % · Shares
- A whole family counts as one member with a head count
- People who join partway: a bill includes only those on the trip that day

04
## Balances & settle-up

- “Pay with UPI app” opens GPay, PhonePe, Paytm or BHIM with the amount filled in
- Mark as paid — cash, UPI or bank
- Remind on WhatsApp: their chat opens with the amount, your UPI ID and the bills link typed in

05
## Trip members

- A personal invite link for each name, sent on WhatsApp — works once, expires in 14 days
- Sign in with Google or email, confirm the name, and the trip opens
- One family on several phones can share one name

06
## Reports & budgets

- Counts your own share, or the full bill amounts — your choice
- Any period, by category then subcategory
- Monthly budget per category

07
## Made for India

- Voice entry in English, Hindi and Gujarati — shows what it hears, on iPhone and Android
- Foreign-currency spends with your exchange rate
- Business and reimbursable tags for work spends
